A GREAT DEAL IN LETTER BOX

Cylinder Taken from Y. M. C. A.
Building Recalls Old
Memories.

Away back in the eighties, when the Y. M. C. A. was only a comparatively young institution and when the present building was erected in Honolulu, a copper box was embedded in the masonry of one of the corner stones. In it were placed various records so that in years to come, when a new building was planned, the members of the later generation would be sure to know something about the origin of the old home.

On Monday morning the stone was broken into and the case removed. This was done in order that the papers contained in it might be added to and the whole of the documents placed in one of the corner stones of the magnificent new building, now in course of erection, and which is the largest in the world in comparison with the size of the town.

The taking up of this stone recalls old memories. The ceremony of laying it took place on September 28, 1882, when there was a large crowd present, including His Majesty the King, His Excellency R. M. Daggett, United States minister resident; Hon. A. S. Cleghorn, Hon. Charles R. Bishop, president of the board of education, F. A. Schaefer, dean of the foreign consular body; and a large number of leading citizens.

"Well and Truly Laid."

The proceedings were commenced by the singing of a sacred piece by the choir of fourteen of the best amateurs of the day under the leadership of W. W. Hall, J. A. Cruzan offered prayer and Rev. C. M. Hyde read a description of the building. The box was then deposited in its resting place. Professor Pratt laid the mortar and guided the stone into its exact place. After declaring it to be "well and truly laid," he added a few words of exhortation.

P. C. Jones, the then treasurer, stated the finances. There was a debt of \$60,000 still owing on the building. The total cost had been made up as follows: Land \$4000, contract price of building \$14,600, and another \$2000 for furniture, lighting, etc. An appeal was made by him for subscriptions to meet the debt and about half the sum was raised on the spot.

Contents of the Cylinder.

The box or cylinder, which is of copper and in perfect state of preservation, is lying at the present time in the safe at Castle & Cooke's. When it was first taken out an anxious time was experienced as nothing could be heard rattling about inside. When the following list of papers which are in the box are read over, however, there is no wonder that no rattle could be heard.

English Bible, New Testament in Hawaiian, constitution and bylaws of the institution, address on Young Men's Mission, by W. J. Smith, list of subscribers to building, copy of building contract, manual of Fort street church, articles of faith and list of membership of Bethel Union church, report of Hawaiian Board, report of Woman's Board, report of the Hawaiian Mission Children's Society, report of the board of education, report of the minister of finance, report of the minister of police, catalogue of Oahu College, circular of Kawaiahoi Seminary, circular of the Sailors' Home, constitution and bylaws of the Hawaiian and Chinese Y. M. C. A., Hawaiian almanac and annual, Hawaiian guide book, newspapers of the town (English and Hawaiian), copy of "Holo no Nani," by L. Lyons, United States dollar of 1882, photos of their majesties, photos of Kawaiahoi church, specimens of Hawaiian postage stamps, specimens of Hawaiian government stock and coupons, issues of program of the exercises in connection with the laying of the stone.

The cylinder, which is a cubical copper one, measures only nine inches square so that it is no wonder they could not make it rattle. It has been decided to open it at a dinner to be held some time in January, when the directors, trustees, building committee and all those members who belonged to the institution will be invited to attend.

KEEFE INTERVIEWED BY HILO LABORITES

HILO, December 17.—Immigration Agent Keefe returned early this morning from his trip along the coast and went to Wainakea plantation, accompanied by A. Gartley and Raymond Brown. Mr. Gartley returns to Honolulu by the Claudine on Monday, but the two immigration men will remain longer on the island.

This evening Mr. Keefe will receive a series of questions from the labor federation people, to which they desire answers. He is said to have made the statement to them, a few evenings ago, that while people go from Honolulu to Washington and say they are anxious to procure Americans, and those who will help to Americanize the Islands, they show no anxiety to do so after their return home. He gathers this idea, he is reported to have said, partly from object lessons and partly from information given him.
